

BIOGRAPHY

Dr Franco Fiore

Head NCI Agency Enterprise Services and Senior Responsible Owner (SRO) for the Agency's Infrastructure Programme.

Dr Franco Fiore was appointed the Head of NCI Agency Enterprise Services (formally known as General Services) on 1 August 2020.

A former Italian Army Corps Engineer, a role from which he retired in 2004, Dr Fiore spent four years in the United States of America serving at the NATO Medium Extended Air Defense System Management Agency (NAMEADSMA) as a Sensor Simulation Engineer, and joined the NATO Consultation, Command and Control Agency (NC3A, a predecessor of the NCI Agency) in January 2005.

Between 2005 and 2012, he was the counter-improvised explosive device (C-IED) and counter-terrorism programme manager. Responsible for the Agency's C-IED portfolio, which handled projects worth over 50 million EUR, he delivered C-IED capabilities for the International Security Assistance Force (ISAF), the former NATO-led security mission in Afghanistan, and supported NATO Allied Command Transformation and Allied Command Operations in their counter-terrorism and C-IED activities, as well as the NATO Headquarters counter-terrorism technology section, under the Emerging Security Challenges division.

From July 2012 to December 2015, he worked for the Director of Service Strategy as his Executive Officer, dealing with numerous tasks, from business process and asset management to supporting the partnership between the NATO Support and Procurement Agency (NSPA) and the NCI Agency. From January until March 2016, he worked directly for the Director of Application Services dealing with internal process enhancement, business intake, workload/work capacity analysis and future resource planning.

From March 2016 to February 2018, he acted as the Service Support and Business Applications Service Line Chief, accountable for the delivery of Business Applications and logistic services to Agency and external customers.

In 2008, in recognition of his outstanding contribution to NATO and to ISAF, he was awarded the prestigious NATO Meritorious Service Medal.

He has a Master's degree in Computer Engineering as well as one in Complex Electronic Systems. He also holds a post Master's degree in Computer Engineering and Telecommunications.

He holds PRINCE 2 Project Management and Manage Successful Programmes (MSP) qualifications. In 2011-2012, he attended the third edition of the NATO Executive Development Programme (NEDP). From September 2016 to June 2017, he attended the first Achieving Leadership Excellence Programme.

Dr Fiore is the author of numerous papers, technical notes and articles in newspapers and magazines on counter-terrorism and C-IED as well as on Agile Software Engineering, speaks fluent English, German and Italian and has a good knowledge of Dutch.

Dr Fiore is married to Daniela and is the proud father of an adult son, Alessandro.
